(Monday & Thursdays)

"Maintenance Matters" by Sylvester Salters

The U.S. Environmental Protection Agency (EPA) emphasizes that moisture control is the key to preventing mildew.

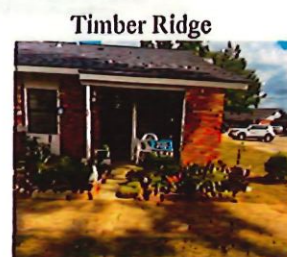

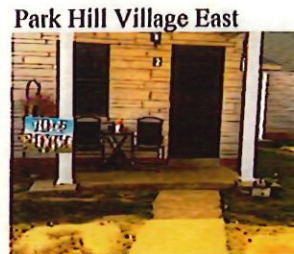

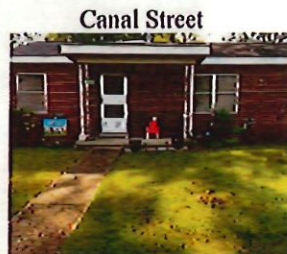

Steps to prevent mildew:

- **Control Moisture:** This is the most crucial step.
- **Fix Water Sources:** Repair leaky roofs and plumbing issues.
- **Reduce Indoor Humidity:**
 - Use air conditioners as needed.
 - Vent bathrooms, dryers, and other moisture-generating sources to the outside.
 - Use exhaust fans when cooking or cleaning.
- **Prevent Condensation:** Reduce condensation on surfaces like windows by increasing ventilation or raising the temperature.

**ALL OFFICES WILL
BE CLOSED-
SEPTEMBER 1, 2025
