July 2025:  
Check Smoke Detectors**

**“Maintenance Matters” by Sylvester Salters**

Summer is here and it is possible you will be seeing snakes. There are ways that they can be kept down; by not storing old furniture, washer machine, dryer, or anything that can harbor them around your home. And let us not forget dog poop. Dog poop can be a food source for rodents like mice and rats. Rodents, in turn, are a food source for snakes. By leaving dog poop around, you’re essentially creating an “all you can eat buffet” for rodents, which can then attract snakes.

**JUST A REMINDER!!! PLEASE DO NOT SIT  
ON AIR CONDITION UNITS, IF ANY  
DAMAGE TO THE UNIT, THE TENANT WILL  
BE RESPONSIBLE FOR IT. THANK YOU!!**
